

Statement of Process Disclaimer

To address concerns over potential cross-contamination or exposure to COVID-19 by our volunteers, we recommend all donations:

1. Are dropped off to collection sites with **appropriate social distancing** (no law against going outside...yet)
- 2: All gear is **wiped down** and placed in **sealed, ziplock bag** prior to drop off in collecting sites. Be assured, the collecting point person will **wear gloves** and **wash hands** when handling your gear.
3. When gear arrives at its facility, it will be **disinfected according to each hospitals protocol** and to be used as they deem fit.

Thanks for your contribution to help during this pandemic.
